Mr. Glenn Glazer
Site Selection Administrator, Anticipation
C.P. 105, Succursale NDG
Montréal, Québec
Canada H4A 3P4

Dear Glenn,

I'm pleased to say that Real Soon Now has come around, and I've prepared the filing, in accordance with Article 4 of the WSFS Constitution, for a bid to host the 10th NASFiC on August 5-8, 2010 Raleigh, North Carolina. Please take this letter to be our formal announcement of intent. The attached documents will cover the remaining eligibility requirements. I would very much appreciate it if you would respond to let us know when you have received and accepted our filing.

First, please note the attached letter of intent from the Greater Raleigh Convention and Visitors Bureau. The Bureau has drafted this letter, which has also been signed by representatives of the Raleigh Convention Center, Marriott Raleigh City Center, and Sheraton Raleigh. Should the NASFiC be awarded to Raleigh, these three facilities will provide the meeting space and sleeping rooms for the convention.

I have also included the charter, bylaws, and standing rules of the Southern Alliance of Fandom Enthusiasts, the organization behind this bid. Please refer to section V of the bylaws for our rules governing bids and conventions, including procedures for the appointment, removal, and replacement of the Chair and other officers of the Raleigh NASFiC in 2010 Bid and Convention Committees.

The Raleigh NASFiC in 2010 Bid Committee is currently as follows: **Warren Buff and Michael Pederson, Co-Chairs; Tony Ruggiero, Treasurer; Chris "Glug" Hensley, Secretary;** Everette Beach, Dan Caldwell, Chris Garcia, Kerry Gilley, Kat Hibpshman, Dina Krause, Sidney Krause, Kelly Lockhart, Brendan Lonehawk, Tim Miller, and Crystal Ritchie.

I believe that we can organize a successful and enjoyable NASFiC in Raleigh in 2010. We have the full support of the city and our facilities, as well as a committee looking forward to the chance to host a NASFiC. Thank you for your time and attention.

Sincerely,

Warren Buff
Co-Chair, Raleigh NASFiC in 2010
